# What is HealthSpotter?

- HealthSpotter is a mobile App
  - AI Image recognition for skin preliminary diagnosis
  - Physician recommendation for further treatment
  - Clinic recommendation based on various elements:
    - Clinic ratings
    - Insurance provider
    - Wait time
-

---

# What problem are we solving

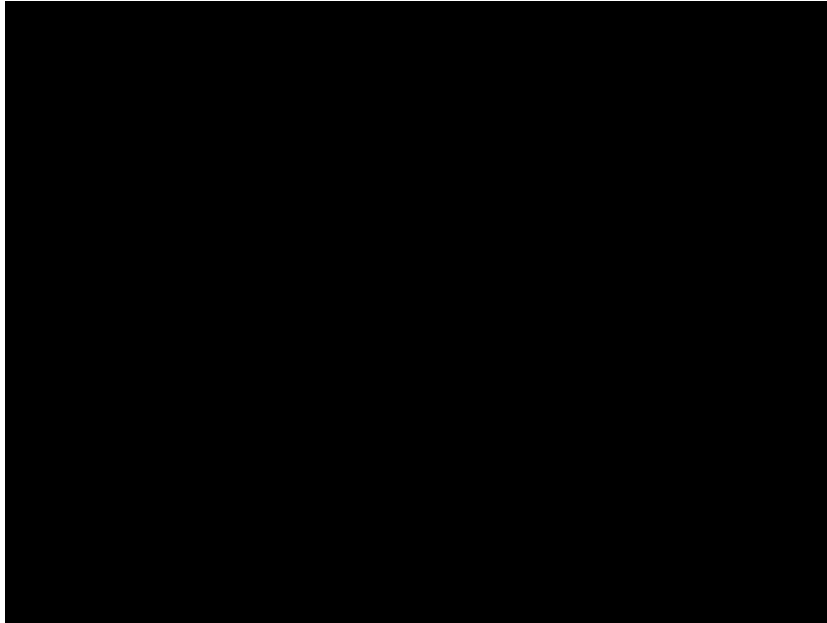

- Have you ever...
    - Had trouble finding a health center that takes your insurance?
    - Waited for over an hour to get medical care?
    - Had trouble describing your symptoms to your doctor?
  - HealthSpotter can give you the power to:
    - Find the nearest health centers, filtered by insurance providers.
    - Check wait times for all nearby locations.
    - Simple symptom descriptions to provide information for your doctor.
    - Snap a photo to give likely diagnosis of your ailment.
